FROM CONCEPT TO REALITY

BRINGING AI TO LIFE

TAILORED AI THAT WORKS FOR YOU

A STRATEGIC, END-TO-END APPROACH TO AI

We deliver AI as a business strategy, not a product-built around your goals and context.

- No one-size-fits-all AI - we deliver bespoke, business-first solutions
- Consultative process - from concept to live deployment
- AI with a strategy - not just tech, but a plan for ROI
- Embedded AI that boosts efficiency, insight, and competitive edge
- Cross-disciplinary expertise - Machine Learning, Computer Vision, Automation.

AI WITH REAL-WORLD IMPACT

TURNING INTEREST INTO IMPLEMENTATION

Our five-stage process transforms AI ambition into measurable business outcomes.

- Discovery Meeting - Uncover challenges, spot opportunities
- Art of the Possible - Tailored AI use cases aligned to business goals
- SOW & Quote - Clear plans, fixed pricing, real outcomes
- Build & Develop - Custom-built AI solutions, fully integrated
- Deploy & Support - Continuous optimisation with measurable results.

STEP ONE – UNDERSTANDING YOUR NEEDS

DISCOVERY THAT DRIVES AI DIRECTION

We begin with open conversations and clear questions to identify where AI can drive value.

- Initial chat (Teams or in-person) - no pressure, just ideas
- Engage your wider team to uncover real pain points
- Assess current systems for AI integration potential
- Identify quick wins and high-impact opportunities
- Straightforward advice - no jargon, just clarity.

COMMERCIAL

SEEING IS BELIEVING

EXPLORING THE ART OF THE POSSIBLE

We showcase industry-relevant AI solutions to help you visualise real-world impact.

- We present practical AI applications tailored to your goals
- Show real-world success - from predictive analytics to computer vision
- Use relatable industry examples to spark ideas
- Collaborate with your team to identify value-aligned opportunities
- Map AI solutions to fast ROI and long-term growth.

COMMERCIAL

ALIGNING SCOPE WITH STRATEGY

A CLEAR ROADMAP TO DELIVERY

We turn ideas into a scoped, costed, and realistic implementation plan.

- Fixed-price consultancy to define your AI path
- Translate ideas into actionable steps with timelines and goals
- Focused on ROI, integration ease, and business impact
- Built with clarity - no tech overwhelm
- The bridge from potential to execution.

AI THAT FITS AND FUNCTIONS

BUILD SOLUTIONS THAT SOLVE REAL PROBLEMS

Our team builds AI that’s practical, scalable, and seamlessly integrated into your stack.

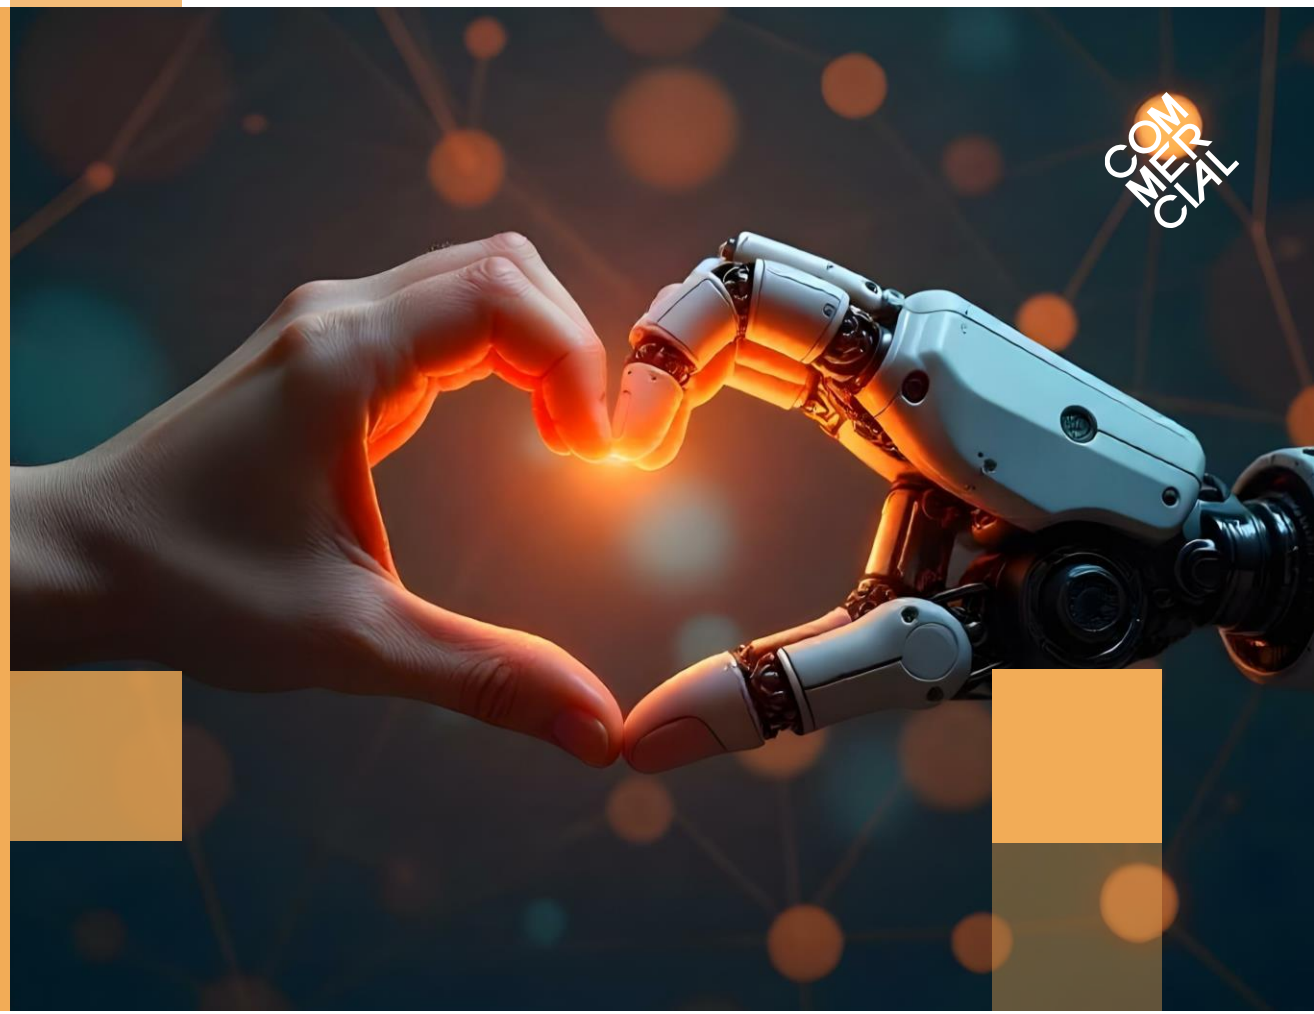
- End-to-end development by in-house experts
- Solutions cover software, data, UX, and hardware where needed
- Designed for seamless integration - minimal disruption
- AI as part of broader digital transformation
- Rigorous testing ensures real-world success.

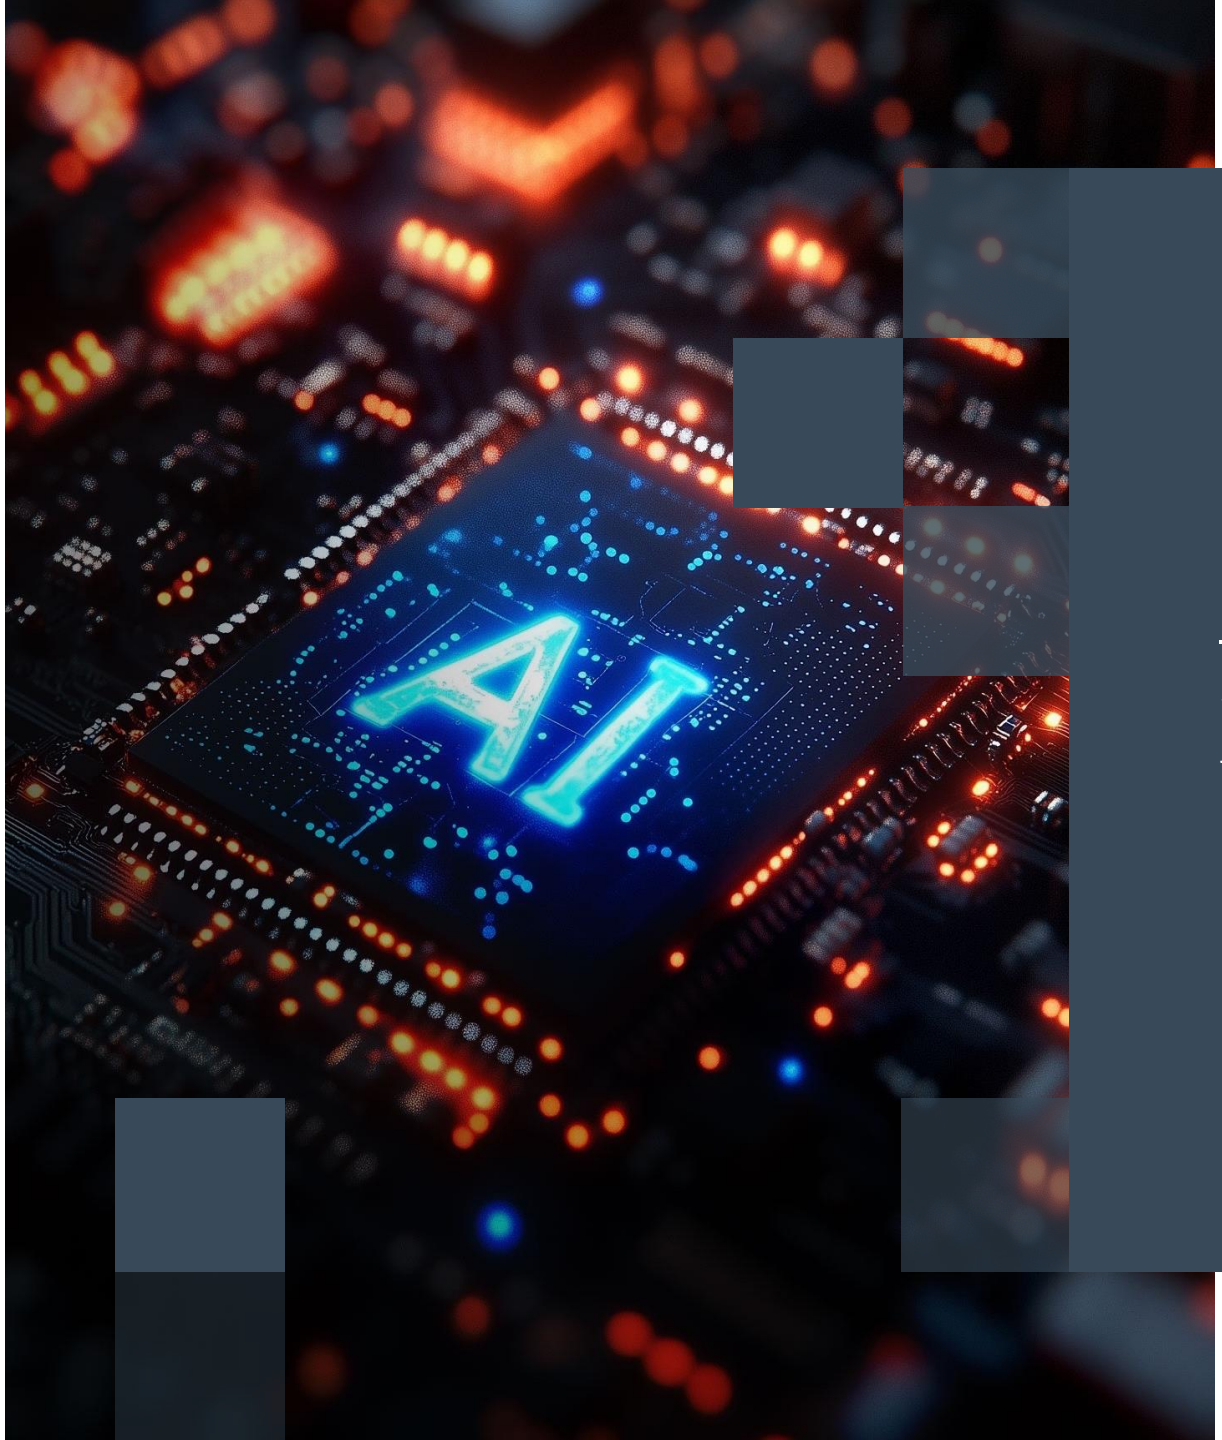
BEYOND GO-LIVE

ONGOING SUPPORT FOR LONG-TERM SUCCESS

We stay with you post-launch, helping evolve and optimise your AI over time.

- Continued involvement post-deployment
- Regular reviews to unlock further improvements
- Practical insights and reports to guide next steps
- Transparent performance metrics
- AI as an evolving opportunity, not a one-time fix.





WHAT SETS US APART

WHY CHOOSE US FOR YOUR AI JOURNEY

We combine AI depth with business focus-delivering value, not just technology.

- Experts in Machine Learning, Vision, Automation & Integration
- Complete service - strategy, build, deployment, and aftercare
- AI strategies built around your specific business needs
- Business-first thinking - AI that solves, not just impresses
- Proven track record of delivering measurable value.

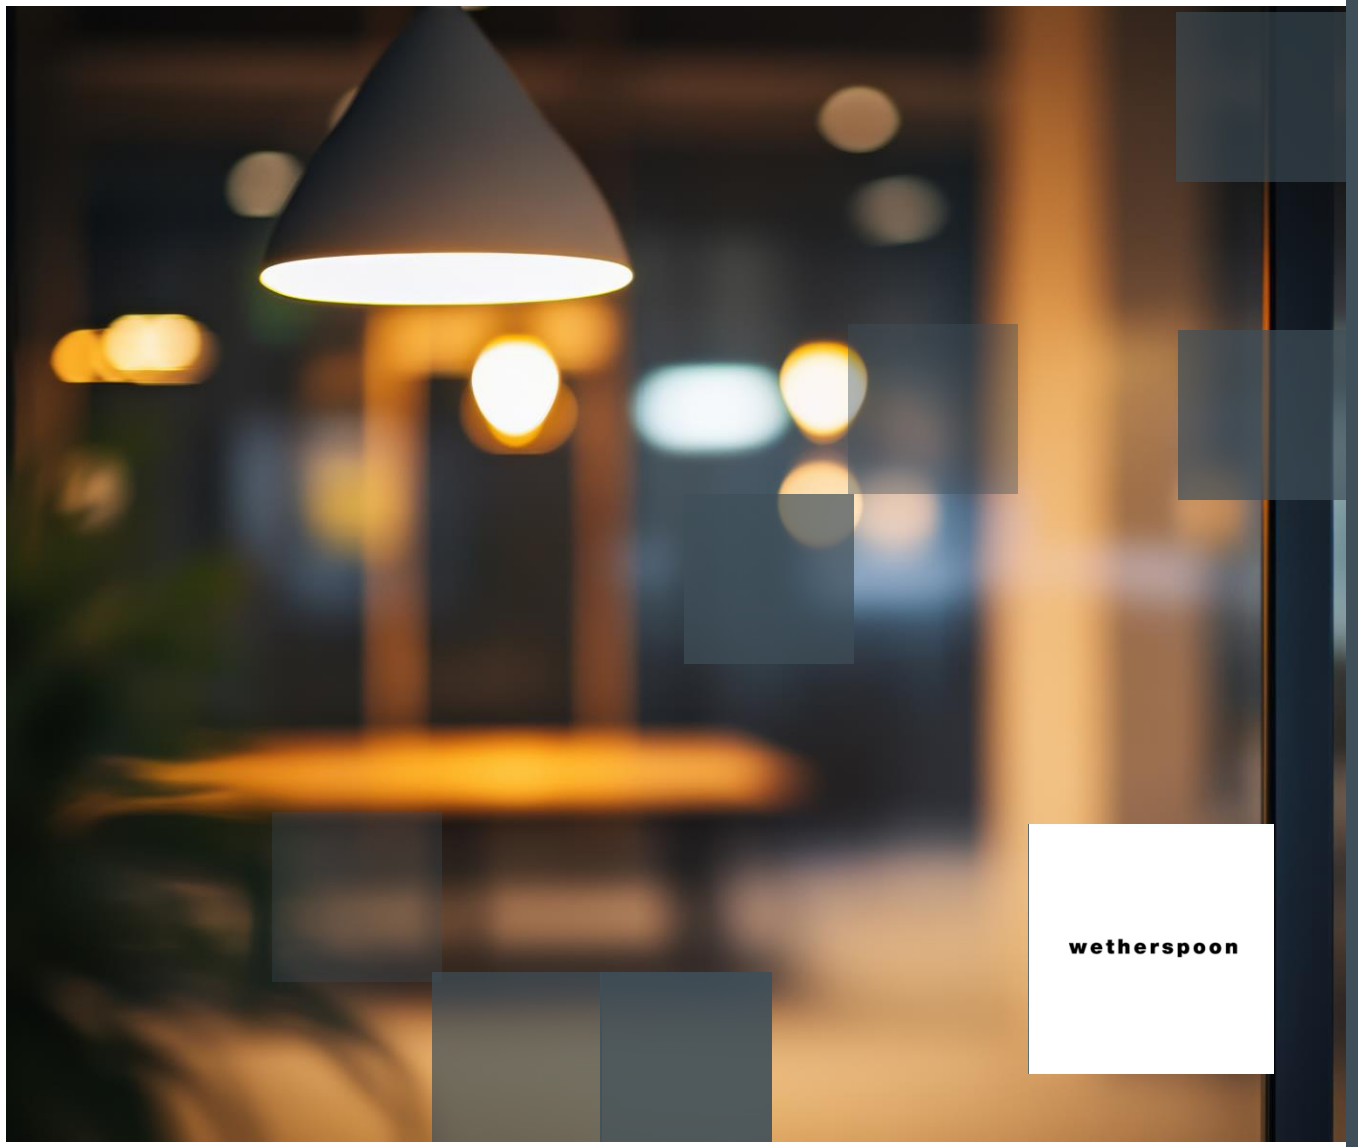
THANK YOU FOR YOUR TIME

ANY QUESTIONS?

BRINGING AI TO LIFE

REAL-WORLD STORIES TO INSPIRE



SMART KITCHENS, SMARTER STANDARDS

AI FOOD QUALITY MONITOR

AI-Powered Food Quality Inspection System
Implement AI to monitor food quality, assessing portioning, presentation, appearance, and temperature compliance, improving over time with more data

Key Considerations for System Success
Ensure AI accuracy through training with diverse dish images, real-time processing, and continuous data feedback

Expected Benefits
Enhance operational efficiency, food consistency, customer satisfaction, and continuous improvement through AI-driven monitoring and real-time adjustments.

Improvement Suggestions

- Consider additional staff training for this specific dish

BOOSTING SAFETY WITH SMART TECH

AI-POWERED PPE COMPLIANCE CHECK

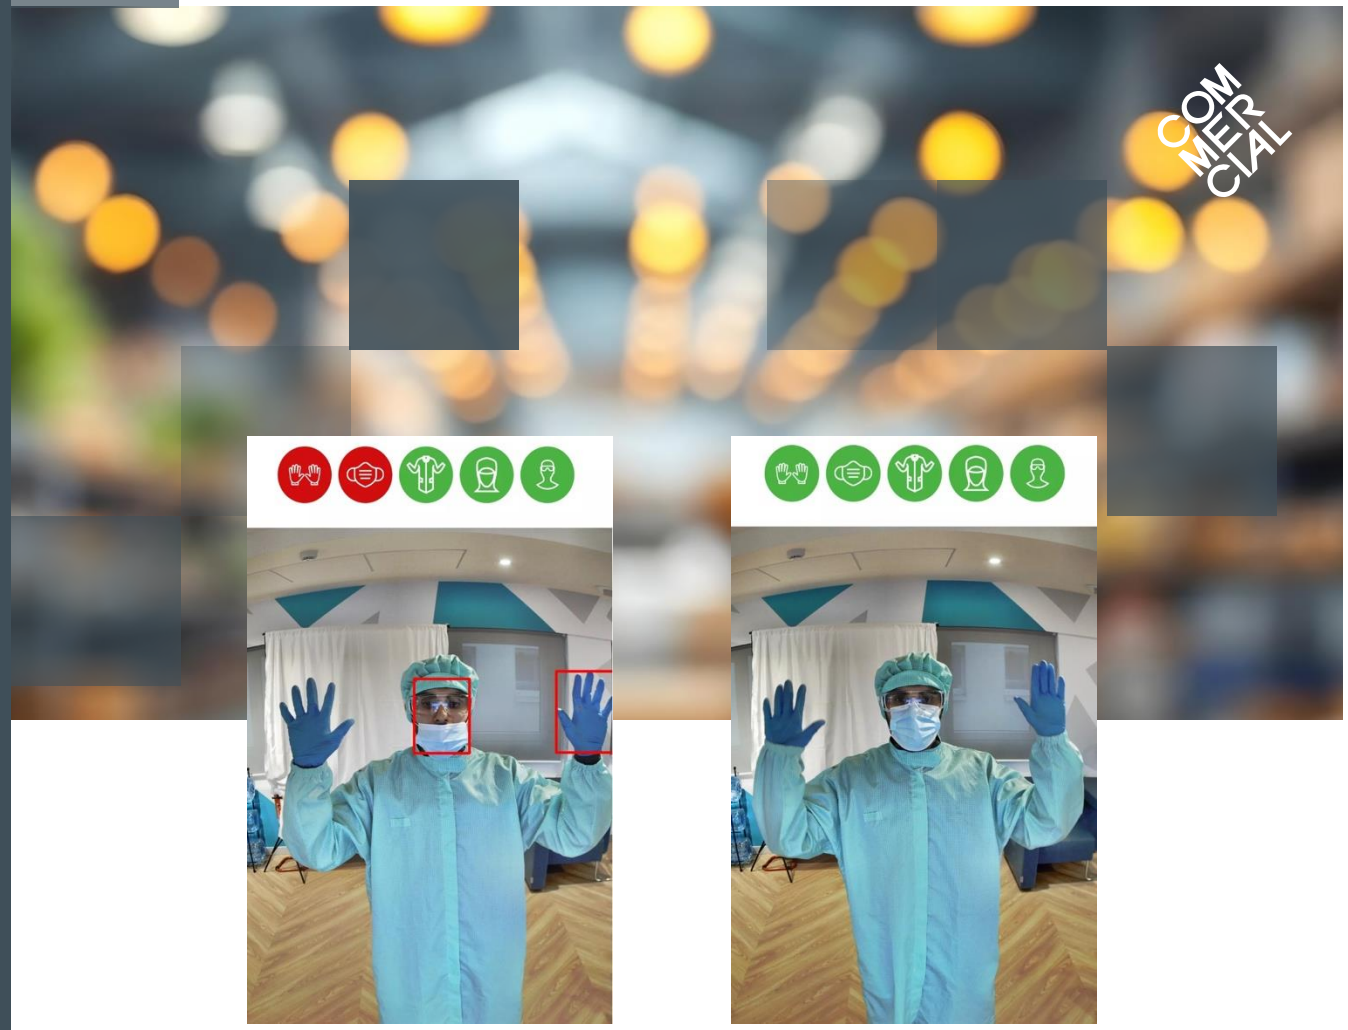
AI-Driven PPE Detection
Automatically verify hazmat suits, safety goggles, gloves, and beard snoods for compliance

Real-Time Feedback
Tablets at entry points display live feeds and colour-coded compliance indicators

Instant Corrections
Users can correct PPE on the spot based on visual prompts

Enhanced Confidence
Staff can independently check compliance, reinforcing safety habits

Data Analytics
Track trends, generate reports, and identify areas for improvement in compliance.



HAND WASH & TEMP CHECK

STRENGTHENING HYGIENE THROUGH SMART MONITORING

COMMERCIAL

Hand Washing
Ensure 20 seconds of thorough washing with prompts

Temperature Taking
Track temperatures and verify identities with facial recognition

Real-Time Feedback
Tablets show live feeds and compliance indicators

Instant Corrections
Correct hand washing or retake temperature based on prompts

Enhanced Confidence
Staff independently check compliance

Data Analytics
Monitor trends, generate reports, and improve hygiene.

RETAIL SOLUTIONS

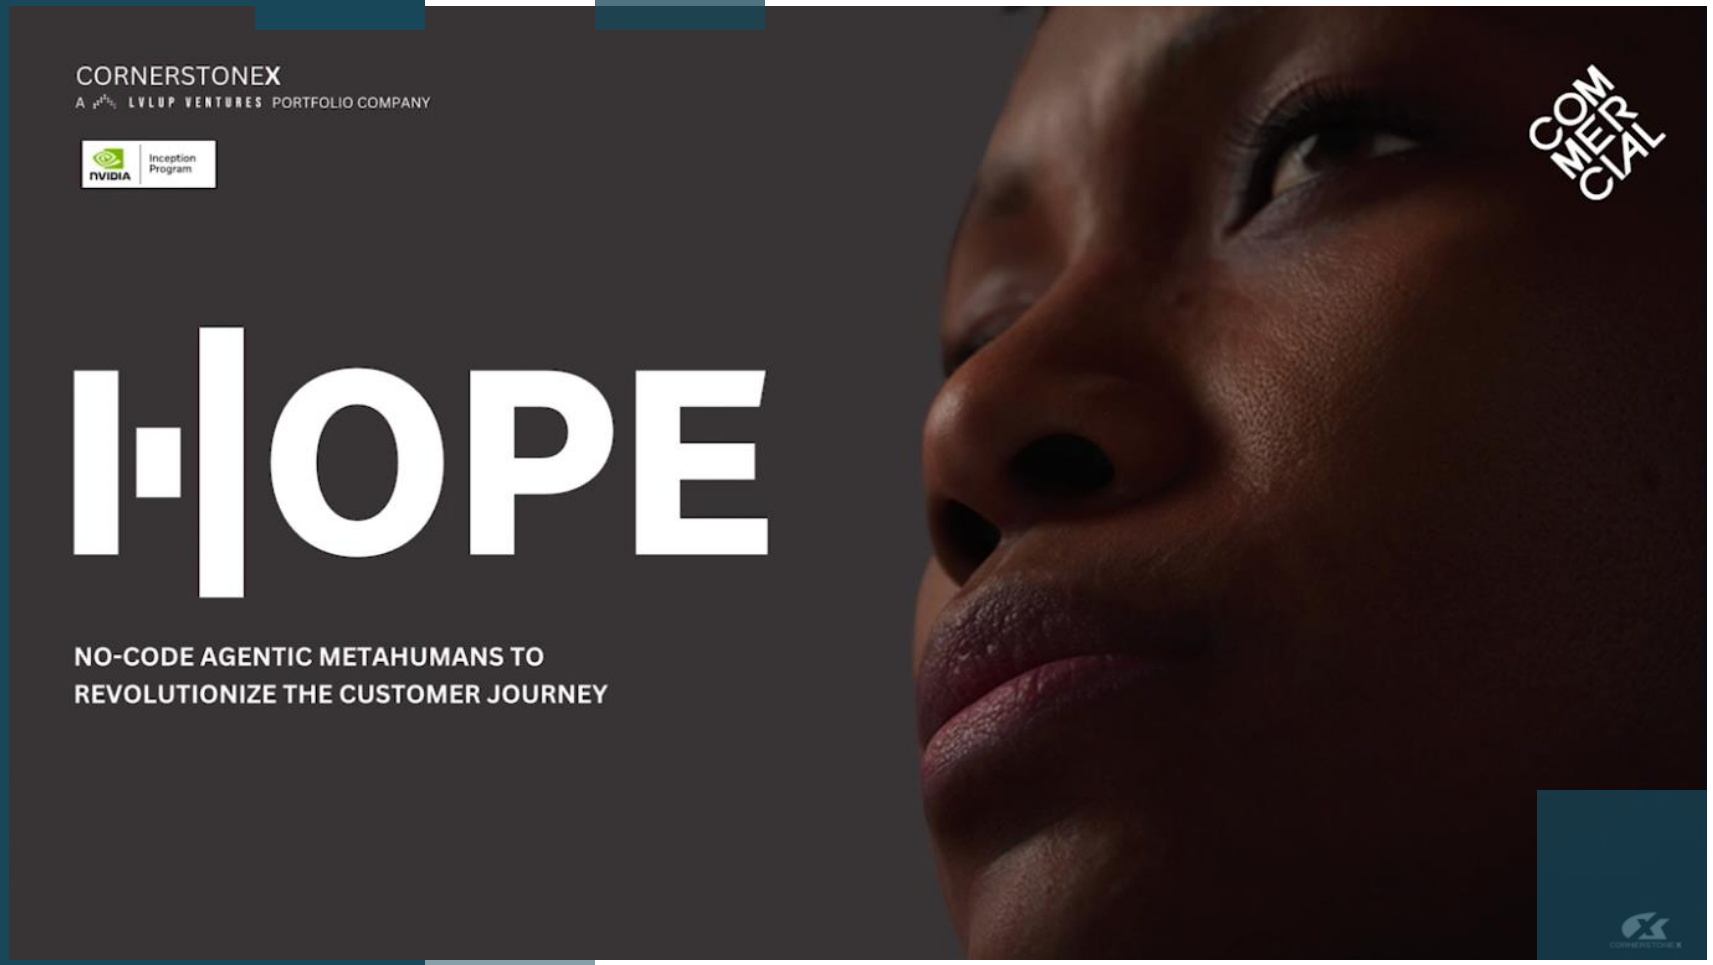
RETAIL SOLUTIONS

Custom technology solutions tailored to your unique retail environment, enhancing store operations and customer satisfaction.

1. Design custom technology solutions that cater to your unique retail environment
2. Expert consultation to understand specific goals and objectives
3. Seamless integration with existing systems for a cohesive and intuitive customer experience
4. Enhance store operations and customer satisfaction with tailored solutions
5. Ongoing support and system optimisation services
6. Scalable solutions to accommodate future growth and expansion.

LET'S TAKE A LOOK

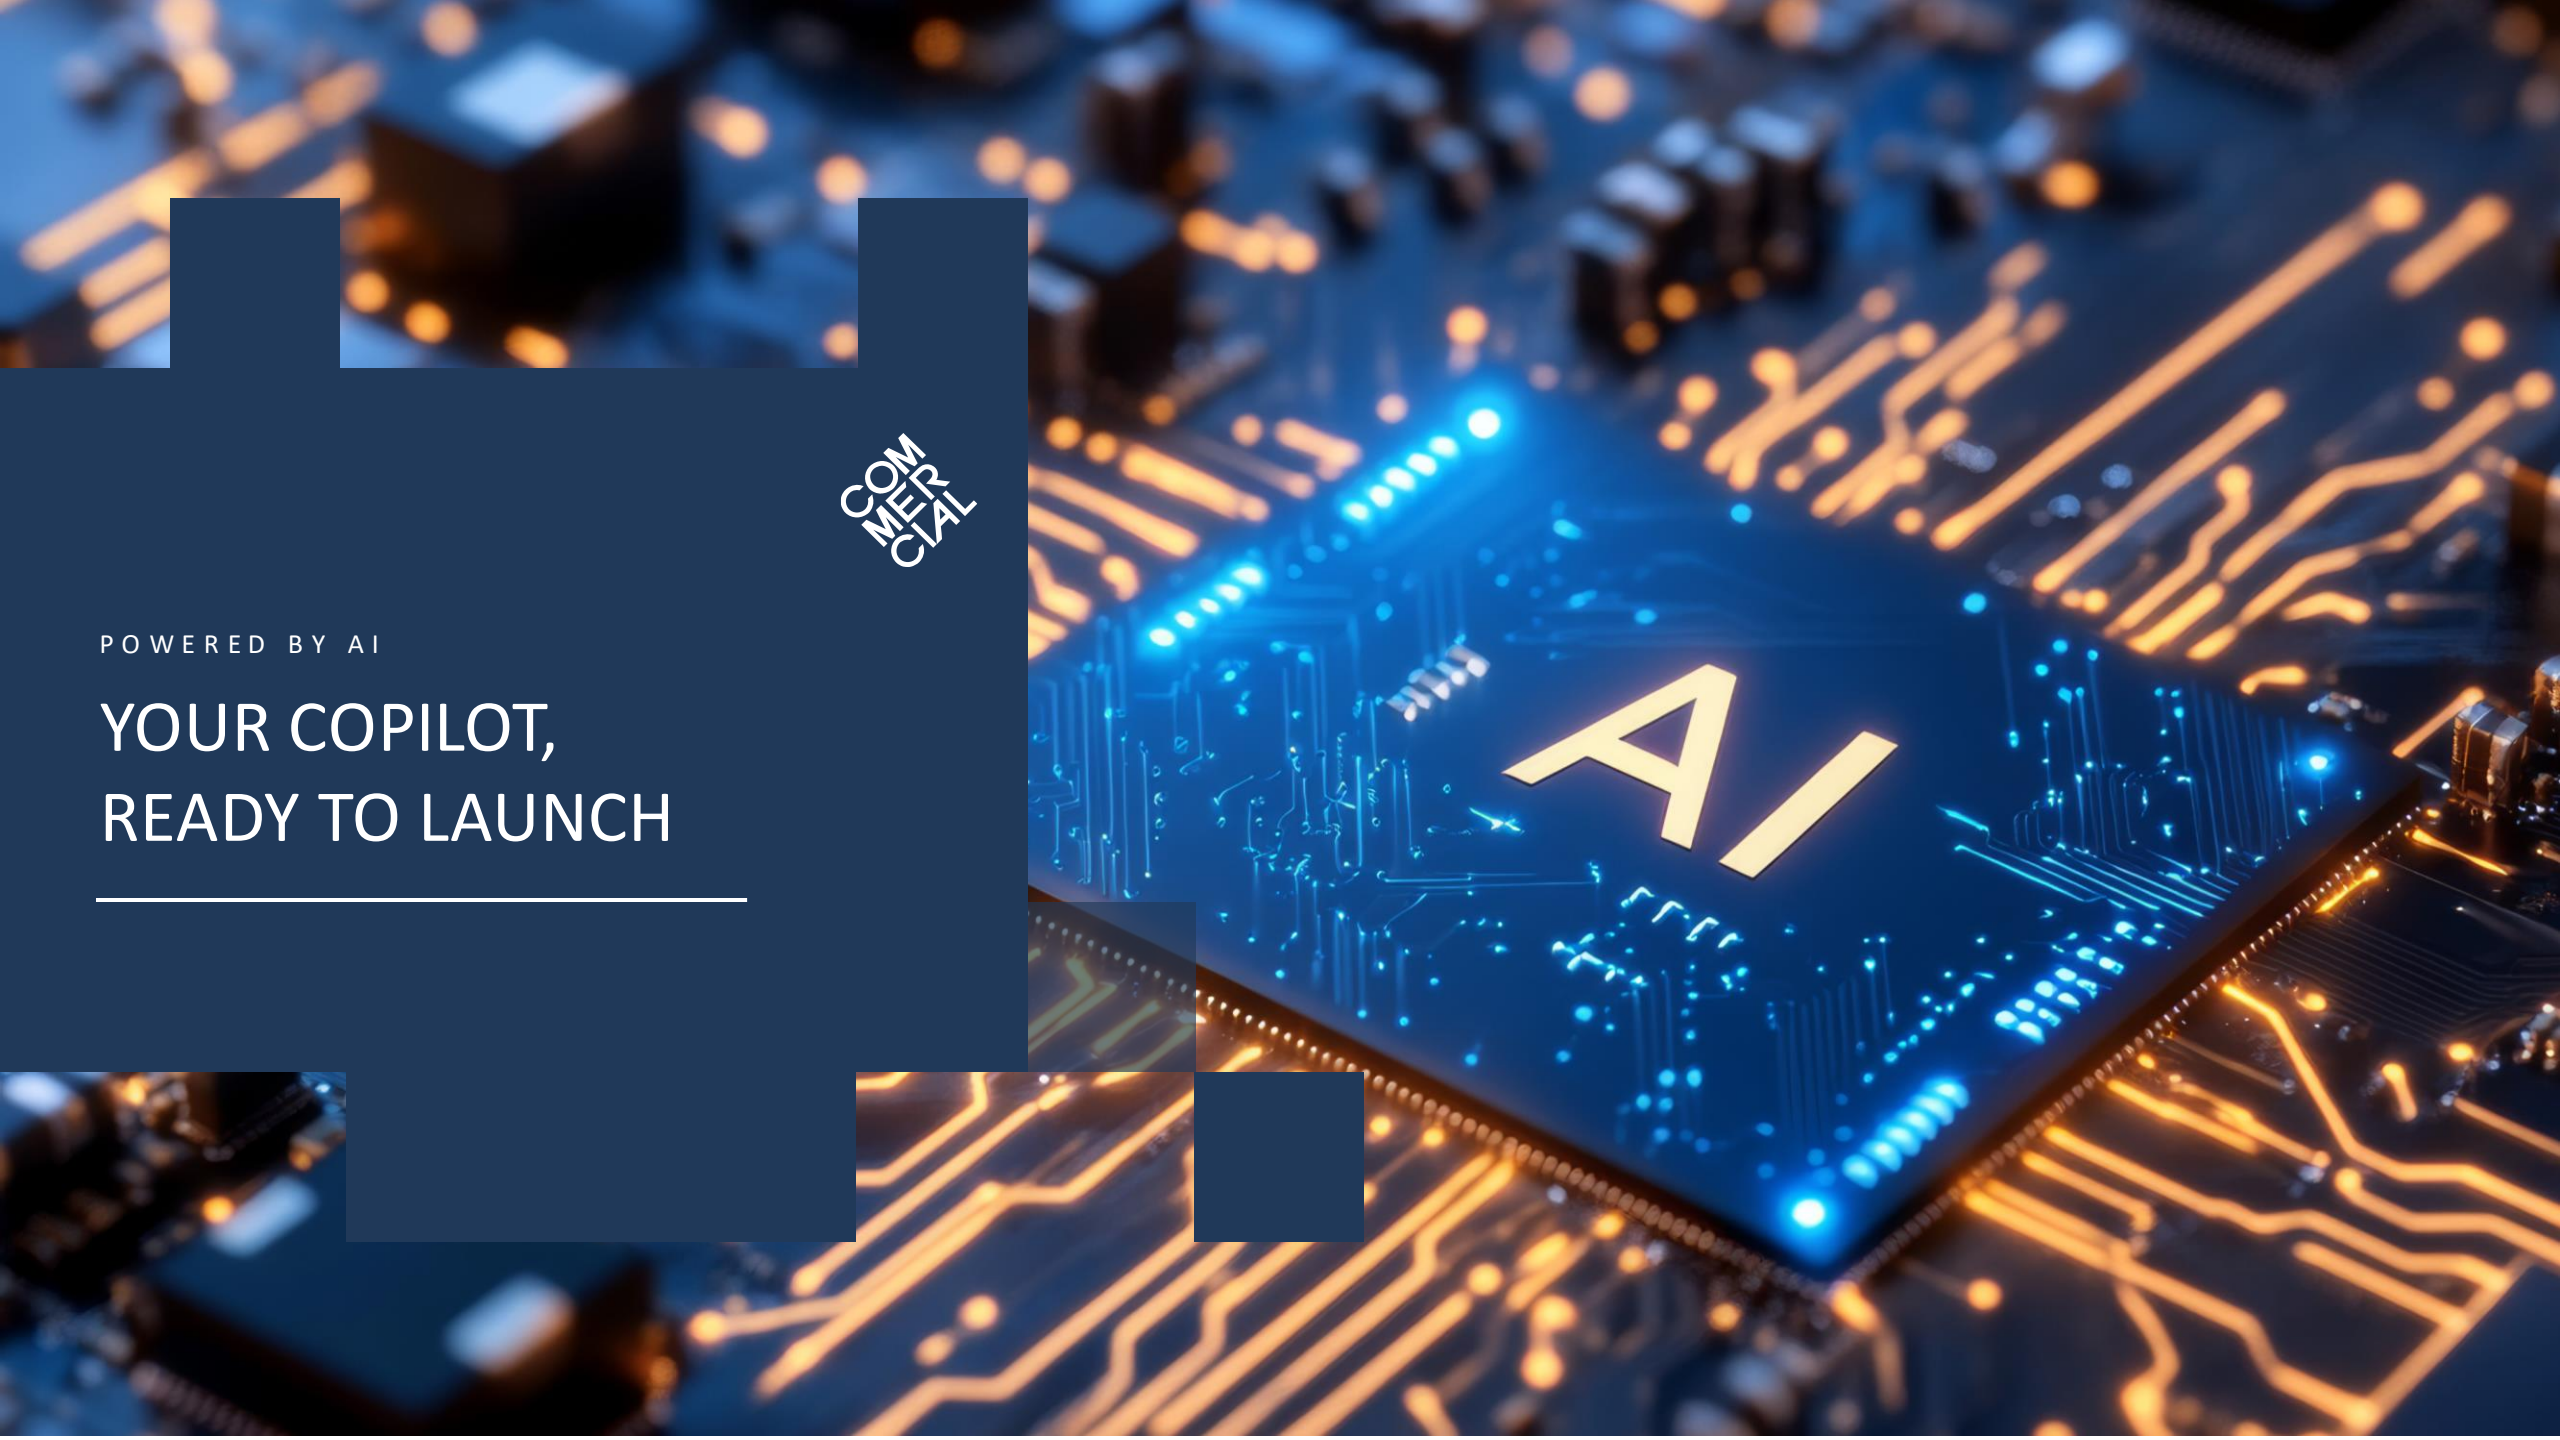
A GLIMPSE INTO OUR AI JOURNEY



COMMERCIAL

POWERED BY AI

YOUR COPILOT, READY TO LAUNCH



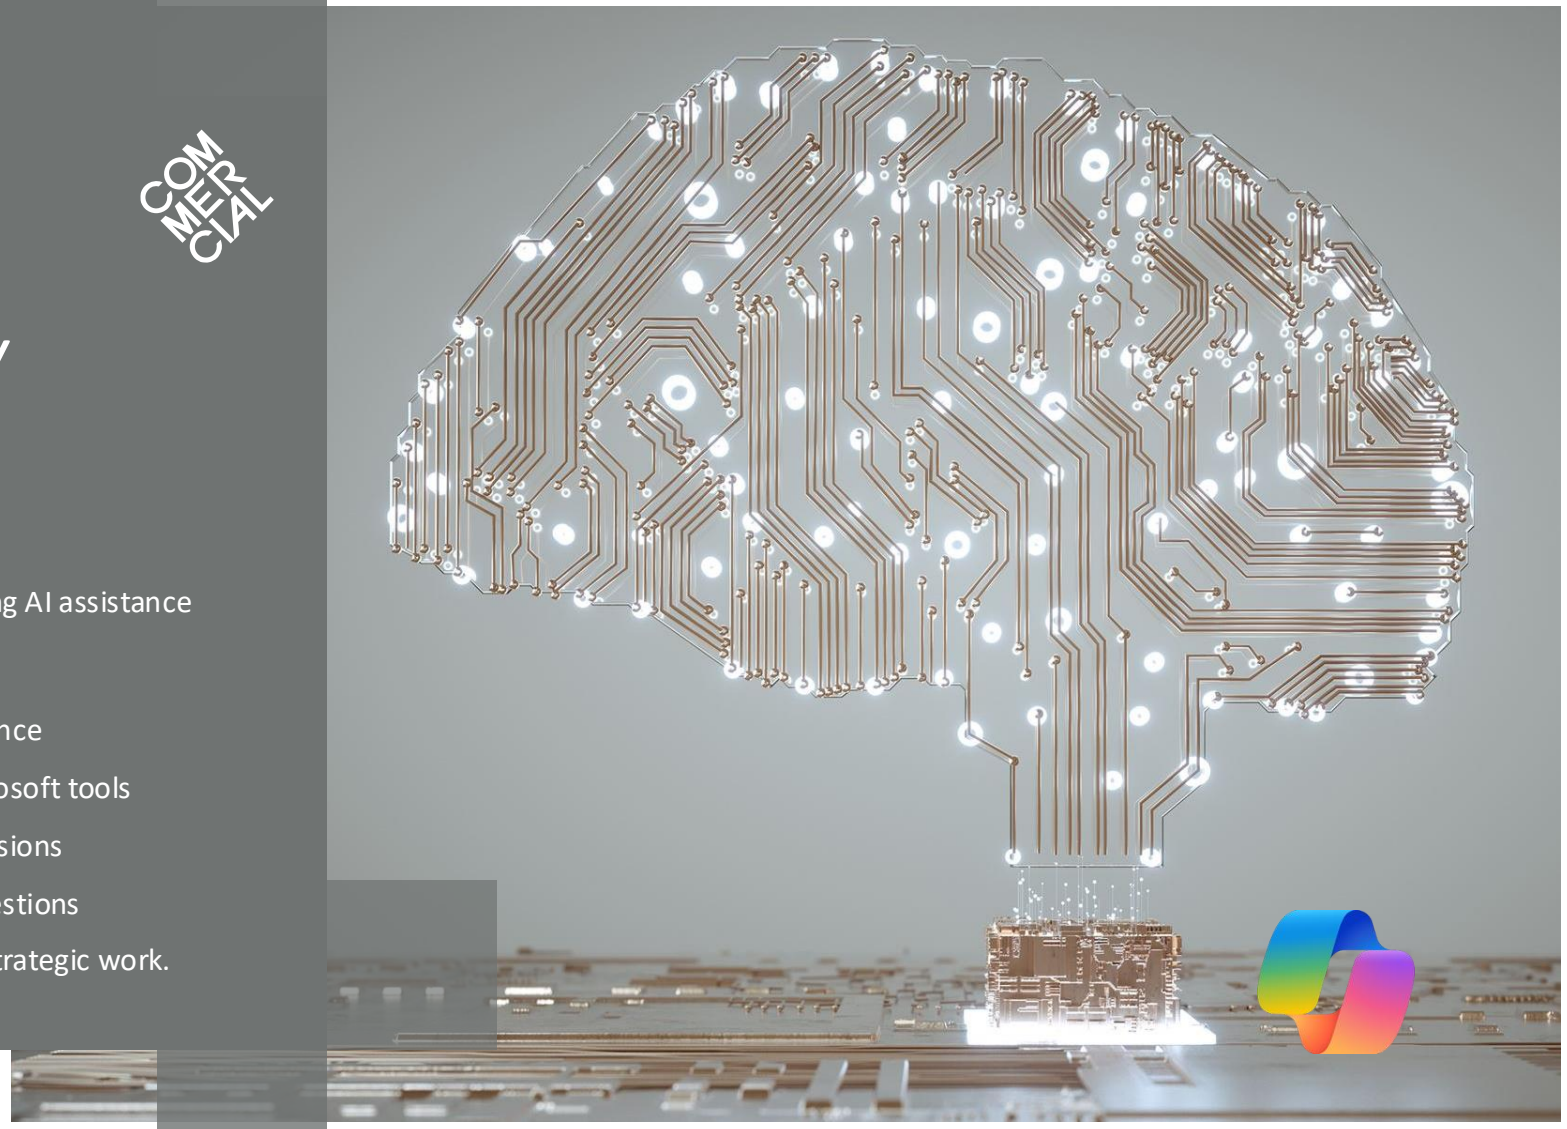
REIMAGINING WORK WITH AI

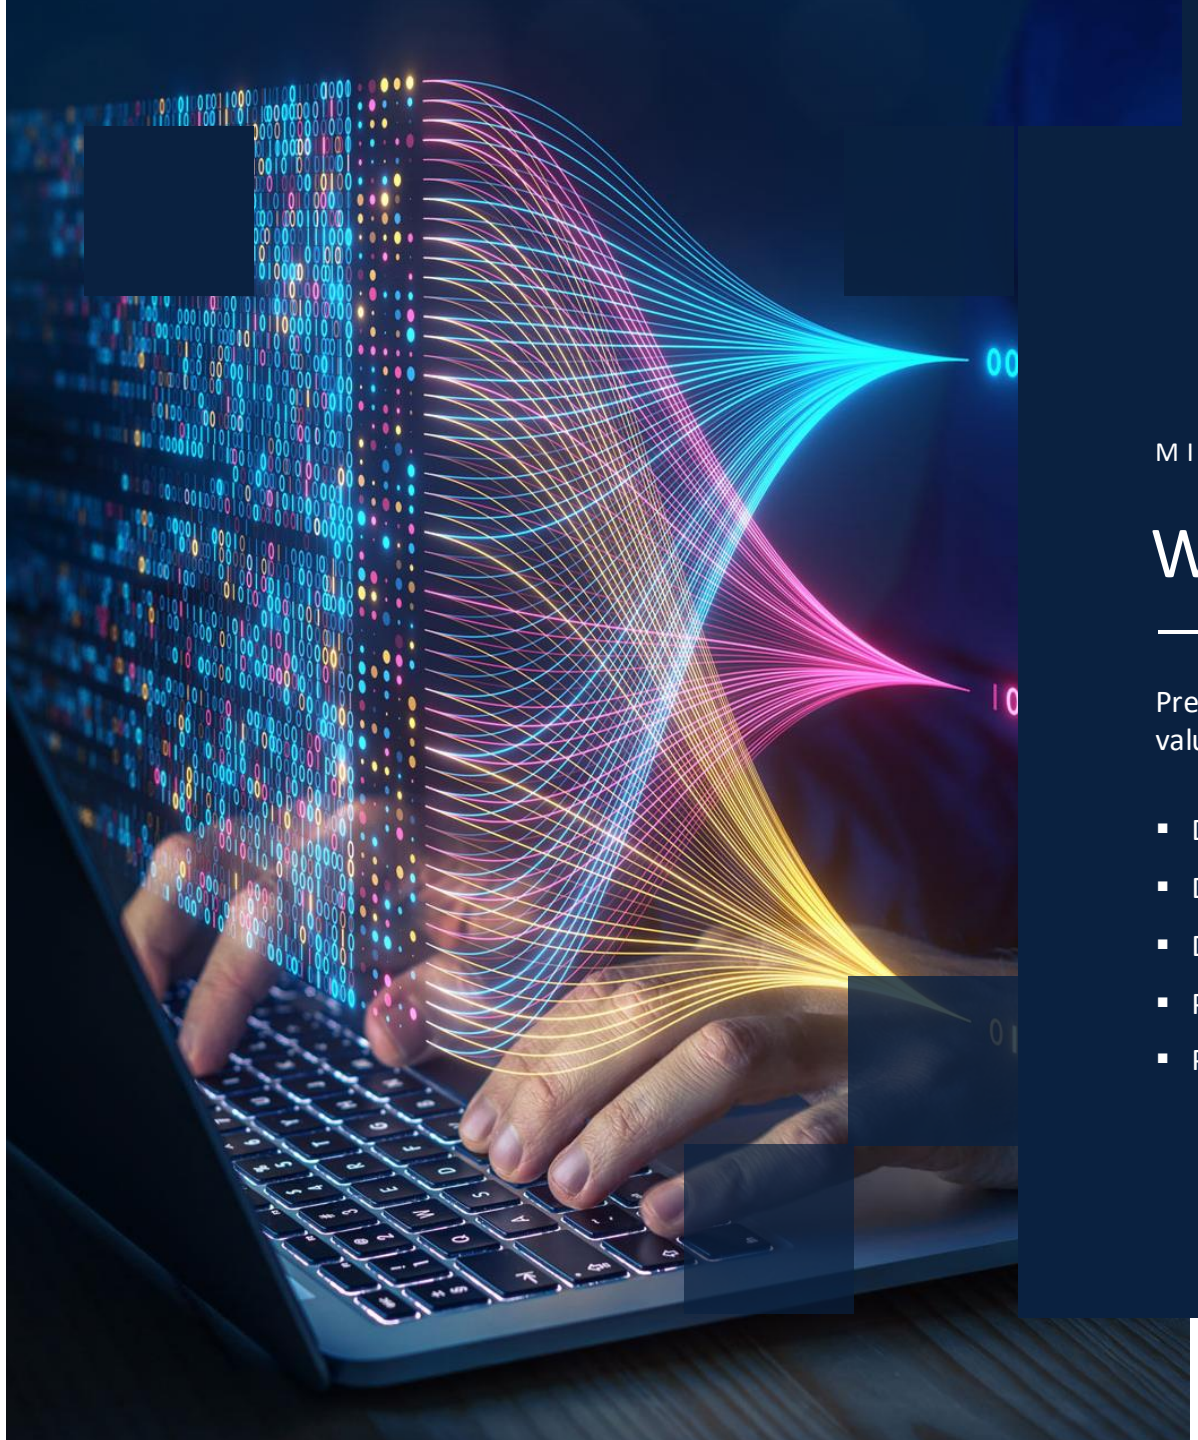
POWERING PRODUCTIVITY WITH COPILOT

COMMERCIAL

Microsoft 365 Copilot transforms everyday work by embedding AI assistance directly into your favourite tools.

- Enhances productivity through generative AI-driven assistance
- Streamlines workflows by integrating seamlessly with Microsoft tools
- Provides real-time insights and data analysis to inform decisions
- Facilitates collaboration across teams with intelligent suggestions
- Reduces repetitive tasks, allowing employees to focus on strategic work.





COMMERCIAL

MICROSOFT 365 COPILOT READINESS

WHY IS THIS SERVICE REQUIRED?

Preparing your environment is essential to safely and effectively unlock the value of Microsoft 365 Copilot.

- Data Accessibility – Non-native sources
- Data Governance – Ensuring confidential data is not available to Copilot
- Data Security – Baseline configuration to secure files
- Prevent the use of other AI tools – Data leakage
- Promote testing and validation – Copilot Champions.

MICROSOFT 365 ENABLEMENT

STRUCTURED APPROACH TO COPILOT READINESS

A phased, secure approach to ensure your environment is ready for Copilot deployment and long-term success.

- Assessment Stage - Initial workshops for IT environment review
- Preparation Stage - Baseline configuration for Microsoft 365 Copilot
- Implementation of Configuration Policies for security and governance
- Optional Improvements - Enhancements for Defender and connectors
- Functionality Testing & Handover - Ensuring smooth transition and support.
